

THE BLAIRMORE ENTERPRISE

VOL. XVII, NO. 30

THE BLAIRMORE ENTERPRISE, THURSDAY, JULY 29, 1928

BLAIRMORE TOWN TAX RATE SET AT TWENTY MILLS

A regular meeting of the town council was held on Monday night, with full council present.

The minutes of previous regular meeting were approved as read and a number of accounts were passed for payment.

Mr. H. Crawford was appointed custodian of the fire truck.

A by-law was passed, fixing a rate of taxation for the year 1928. The rate decided upon was twenty mills, which is four mills higher than last year. The increased rate is made necessary on account of the large amount of work that has and is being done by the public works department, including the new street grading around Hill 60. A discount of ten per cent will be allowed on all current taxes paid on or before October 31st.

Councillor Ferguson gave notice that at the next regular meeting of the council he would introduce a by-law to repeal By-Law No. 4, applying to licensees.

The next regular meeting of the council takes place on Monday night, August 2nd.

Mr. and Mrs. John Spence have as their guests, the latter's mother, Mrs. Sheard, of Calgary, and her sister and husband, Mr. and Mrs. McAdam, of the Royal Bank at Aldridge. The party leave tomorrow to spend a few days at Waterton Lakes.

MINER SEVERELY INJURED

James Duncan, one of the oldest residents of Nordberg, Alberta, was severely injured recently at the McGillivray Creek Coal & Coke Company's mine at Coleman, sustaining a fractured spine and other internal injuries owing to a fall of coal. He was removed to Calgary for operation. Mrs. Duncan, with Mr. David and Miss Nettie, on receipt of the news, immediately left Nordberg for Calgary, proceeding by speeder to Rocky Mountain House (sixty miles), and thence by car to Red Deer, to catch the night train. Mr. Duncan left Nordberg for Coleman a couple of weeks ago, owing to the mine there being closed down. Red Deer Advocate.

WEST CANADIAN BAND TO GIVE CONCERTS

The newly organized West Canadian Band, of which Mr. G. W. Goodwin, of Bellevue, formerly of the 12th Canadian Mounted Rifles, is conductor, will give a concert at Waterton Lakes on Sunday evening, August 26th, and at Galt Gardens, Lethbridge, on Sunday, August 27th.

This organization is composed of highly qualified musicians and their concerts should draw crowds of lovers of good music.

Carl Anderson (not of Blairmore) was killed by lightning at Huscar, Alberta.

WILL NOT PUBLISH RESULTS OF EXAMS

Parents and pupils who have been waiting for the publication of school examination pass lists in the newspapers of the province, are doomed to disappointment this year.

Ferren Baker, minister of education, and John T. Ross, deputy minister, stated at Edmonton that examination results will not be compiled in lists for the papers, in accordance with a new system adopted this year, but that each pupil taking the June examinations will be notified of their success or otherwise by means of a letter from the department.

Mr. Ross said the students in Grade XII will receive their letters this week. The results in Grades XI and X will be mailed early next week, and Grade IX standings will be forwarded as soon as the staff of examiners have finished reading the papers, which will not be for another week at least.

Grade VIII results will be ready for publication in the newspapers, as usual, about August 10th.

BLAIRMORE MINERS ASK ARBITRATION

EDMONTON, July 27.—Application has been made to the labor branch of the Alberta government by the miners' union of Blairmore for the appointment of a board under the Industrial Disputes Act.

A dispute in regard to wages in the local coal mining camps is understood to be the reason for this request, which will be dealt with by the government at once. Three members constitute these boards as a rule, and that number will probably be appointed in the present case.

ALBERTA MAN HONORED

Heading the list of 545 entrants throughout the Dominion, who sat for civil service examination for the position, Clifford S. Bassett, a graduate with honors of the University of Alberta, who gained a distinguished record overseas during the war, has been appointed Canadian trade commissioner to South Africa.

In a big league game here last evening, the Blairmore baseball seniors trounced Pincher Creek to the extent of seven to four in a game that for a while appeared to be all Pincher's. The first half of the game was umpired by Pete Wasson, who's decisions were not as Pincher would desire. A change was made and the same attitude of Pincher prevailed, so that the game closed before the finish because the visitors refused to take the ruling of the umpire. "Hank" LeVasser and Marquis were stars for the visitors. Blairmore's team was not the regular lineup, Rae and some others being absent. Next time Pincher visits this burg, the locals figure on having on hand a first aid team, specially equipped to look after chronic soreheads.

Mrs. Ed. Royle, Master Willie and Miss Nellie, of Blairmore; Mrs. E. Metcalf, Mrs. Watkins-Evans, of Corbin, B.C.; Mrs. Robert Greighton, Mrs. D. Grant, Miss Jessie Collinson, Miss Peggy Collinson, Miss Lucy Carter, of Hillcrest, all leave on Saturday for a two weeks' camp at Waterton Lakes. From there it is their intention to visit Lethbridge, Calgary and also take in a tour over the Banff-Windermere highway.

Miss Janet Nicol, who has been teaching at Rocky Mountain House, is spending part of her vacation with Miss W. Fern Palmer at Claresholm. We are informed that after the summer holidays, Miss Palmer, who has been teaching at Claresholm, will take up a similar position at Lacombe.

SIG SELLIS-FLOTO CIRCUS HERE NEXT THURSDAY

Ninety-two towns and cities out of a possible 174 this season will have been visited by the Sells-Floto circus when it reaches Blairmore next Thursday, August 6th. This town will be the ninety-sixth.

Midnight covered when the show stops here will be \$400. It is expected that more than 17,000 miles will be covered during the thirty-seven weeks the circus is on the road.

The season was opened in Chicago, Saturday, April 10th, and the big amusement organization remained in the Coliseum in that city for sixteen days or thirty-two performances. This show has opened its seasons in Chicago for the past seven years and the big Coliseum has in each instance housed the circus during its stay there.

Closing date for the season has not yet been definitely decided upon, for there is always the possibility that weather conditions may permit of a few weeks extension or on the other hand may cause an earlier closing date than is hoped for.

The show travels in all-steel, 79-foot cars, the train being in one section being about 2100 feet in length. All cars except the Pullmans are loaded as closely as possible.

Sells-Floto is known from coast to coast in both the United States and Canada as the cleanest circus on the road, as well as the "earth's best show" and the only exclusive circus in the world. It is also often referred to as "the circus beautiful." Reasons for all these distinguishing phrases will be apparent to patrons here.

The menagerie is the largest owned by any travelling amusement organization, made up of animals from lands across the sea and from the Rocky Mountains of this continent having been added within the past few months.

It is also the only circus that offers a spectacle so gorgeous that adequate description in a few lines is practically impossible.

Sells-Floto comes from Peru, Indiana, where winter quarters are located on a farm of about 1000 acres in extent. Here there are many buildings for housing the animals during the cold months and shops for the manufacture and repair of wagons and equipment. The farm is in fact the big show place of the community. General offices are in Chicago.

Almost 1000 performers and employees are carried by the show, which is under the direct management of Zach Terrell, veteran showman, and R. M. Harvey, general agent and traffic manager.

There are no gambling devices or catch-penny games with this show. The sideshow is owned by the company and operated along lines which make it distinctive. The same is true of the after-show, which is a long decidedly new line.

The musical organization is under the direction of Victor Robbins, who has been connected with some of the foremost concert bands on the continent.

There are more than 100 acts on the programs and more than 400 performers are required to keep the three rings, the big steel arena and the swinging bar filled with action for the two hours required to run off the program.

The largest city visited this season thus far was Philadelphia, Pa., the smallest being Portage, Wis. There have been no accidents and very few cases of illness among the large number of people carried by the show.

Reports show that in the first six months of 1928 the C.N.R. earnings had an increase of 284.99 per cent over the same period of 1927, being the highest gross earnings since the beginning.

NEW BOARD OF STEWARDS

At a well attended congregational meeting at the United church on Sunday evening last, the following members were elected to serve on the board of stewards for the coming year:

F. M. Thompson, Thomas Dawson, Arthur E. Ferguson, W. H. Chappell, W. Howe, Donald McPherson and W. G. Pearson.

SHOULD INCLUDE COWLEY MAIN STREET IN GRAVEL HIGHWAY

With the general activity of improvement and repair strongly in evidence most everywhere, how about that main street of Cowley? It is incredible that between the provincial department of public works and the village of Cowley some arrangement cannot be made whereby that almost, at times, impassable piece of roadway, should be included in the splendid gravel road on either side of it for miles in length—Pincher Creek Echo.

Rev. Mr. Young will leave by motor Saturday, accompanied by John Rae and Joliet Houghbros, local tennis stars, who will compete in the provincial championships at Edmonton. Both boys are worthy contestants for provincial honors, and here's wishing them success.

ELKS WILL BE HOSTS TO SIX HUNDRED KIDDIES

The Blairmore Lodge of Elks have made special arrangements with the Sells-Floto Circus Company, whereby accommodation will be provided for six hundred children for their afternoon performance on Thursday night at Blairmore. Each kiddie will be supplied with an admission ticket, in addition to the tag. A committee is being appointed to see that the children are properly cared for.

The kiddies will meet at the central school at 1 p.m. on Thursday, and from there will parade to the circus, the procession to be headed by a special circus band.

LOCAL STORES WILL CLOSE FOR THURSDAY

We understand that local storekeepers have decided to keep their stores open on Wednesday afternoon next, and to close all Thursday afternoon for the Sells-Floto circus and the grand opening of the Elks' annual three-day carnival.

Thursday will be one of the biggest gala days in the history of the town and every man, woman and child should be prepared to make the most of it.

The Dominion Day sports at Hanna netted \$1,338.84. The total receipts amounted to \$5,978.54.

Month-End Specials

| | |
|--|--------|
| 11 Cakes Palm Olive Soap | \$1.00 |

Blairmore, Alberta

SAYS IT WILL BE A PRIVILEGE TO HELP CANADA

London.—"It will be a privilege during the next five years to help Canada achieve her great purpose. I shall do my utmost to ensure the prosperity and progress of the Dominion."

Viscount Willington of Rattton, Canada's new governor-general, made this statement in the course of an address on his new post, at the dinner in his honor given here. The function was attended, among other notable, by the Duke of Connaught, former governor-general of Canada; Rt. Hon. L. C. Amery, secretary for the dominions, and Hon. P. C. Larkin, Canadian high commissioner in London.

The Duke of Connaught, proposing the health of Viscount Willington, declared he was confident that the new governor-general would like the Dominion more the longer he lived there. This had been his own experience.

Hon. L. C. Amery supported the toast.

Viscount Willington spoke in the highest strain of his recent journey to Canada, "the general impression of the Dominion can be expressed in two words," he said, "confidence and optimism. It seemed to me wherever I went that Canada was saying 'we are our best during the war but we are no less than before.' We have passed through a bad time since but we think we are the light shining through the clouds; we are perfectly confident that we shall get through our difficulties. Above all, we are devotedly loyal to His Majesty the King and determined more and more to become a pillar of support to the mother country and the British Empire."

"If I am right in this impression, then I am indeed proud that during the next five years I will be privileged to help Canada achieve her great purpose," he declared.

"I am determined, so far as it lies in me, to do my utmost to ensure the prosperity and progress of the great Dominion," he concluded.

Viscount Willington was accorded cheers at the conclusion.

Santa Cruz Snowbound

Sheep and Cattle Herds Suffer Through Cold in South America. Buenos Aires.—Recent alarming rumors concerning the situation in the far south of the republic are being confirmed through reliable official channels received by the ministry of the interior from the governor of the territory of Santa Cruz, which is completely snowbound, and where all communications either are interrupted or cut off.

The governor estimates that 50 per cent of the country's immense sheep and stock herds will be lost unless the snow ceases and the thaw sets in within 10 days.

The thermometer, which for some time has registered 71 degrees below zero, centigrade, shows no signs of rising. This and the governor's predictions has caused a pessimistic effect in wool circles in Buenos Aires.

Warsaw To Paris Flight

Paris.—Lieutenant Thoret, the French aviator, piloting an aeroplane with a wing spread of 30 feet and a 40-horsepower motor, has made a non-stop flight between Warsaw and Paris at an average of 90 miles an hour. The aviator had sufficient gasoline in his tank when he landed to fly to London had he so desired. The "Rifonette" consumed 2 1/2 gallons of fuel for each 50 miles flown. Thoret's trip was made with the purpose of making air tours popular. He was flying in the small plane to cheaper than using an automobile.

Lord Willington Congratulated

London.—Viscount and Lady Willington were among a distinguished gathering at a luncheon tendered by the British Indian Union and the Marquis of Reading, former Viceroy of India, took the occasion to toast the man who has been appointed to succeed Lord Byrd as governor-general of Canada. The luncheon was held under the chairmanship of the Duke of Connaught, who has himself served as governor-general to Canada.

To Visit U. S.

Geneva.—The League of Nations, to the League of Nations Commission on Intellectual Co-operation, announces that Queen Marie plans to visit the United States this fall. Her Majesty probably will sail from a French port about September 16.

W. N. U. 100

King To Run in Prince Albert

Accepts Nomination in Northern Riding for Federal Elections. Ottawa.—Right Hon. W. E. Mackenzie King, former prime minister, telegraphed the Liberal Association in Prince Albert, Sask., accepting the nomination for the Liberal candidate in the September election.

At the same time, Mr. King commended his regards to the Liberals of North York, who also sought to name him as their standard-bearer.

He pointed out to the latter that he would be compelled to spend most of the time between now and election day in a coast-to-coast campaign, and therefore would not be able to devote to North York the time and energy necessary to redeem the riding. "I have felt," he added, "that to enable me to serve the party's interest in the largest way, I should avail myself of the greater freedom which the acceptance of the nomination by the Liberals of Prince Albert will thus afford."

To Manage Wheat

Pool Elevators

C. M. Hall Will Have Charge of Pool Elevators in Alberta. Calgary.—C. M. Hall, manager of the Alberta Pacific Grain Company, has been appointed general manager of the Alberta Wheat Pool elevators, it is here announced. He will assume his duties on August 15.

Mr. Hall has been associated with the Alberta Pacific Grain Company for the last eleven years.

Thomas E. Oliver, also of the Alberta Pacific Grain Company, has been appointed assistant to Mr. Hall. It is generally known that the wheat pool has already purchased 18 elevators in Alberta and have contracted for building fifteen more which it is expected will be ready for business this year.

Harvest in Northern States

Minnesota and Dakota Commence Gathering in Grains. Minneapolis.—The northwest's 1928 harvest has begun.

Harvesting of small grain is under way in several sections of the northwest, and will become general within a week or ten days.

In southern South Dakota and Minnesota, harvesting of wheat is under way, and some oats and barley is being cut. Central South Dakota and Minnesota farmers will start harvesting within a week. Higher other reports said that some harvesting will open in Northern Minnesota and North Dakota within four to eight days.

The first threshing of the season in South Dakota was reported on the Otter Creek farm in the Irene district, near Sioux Falls. Threshing will be general within two weeks.

To Visit Dominion

American National Editorial Association Will Tour Canada. Victoria, B.C.—Favorable impressions gained by members of the National Editorial Association of the United States during their periodical visit to Canada has been a means of encouraging an influx of settlers into Western Canada. This was the view expressed here by Wallace Odell, past president of the association, who is leading a party of 150 journalists across the Dominion on their return east from the 41st annual convention at Los Angeles.

The party will split at Vancouver, about 10 leaving for a trip to Alaska and the remainder wandering at leisure through the Canadian provinces. In the party are two delegates who visited the Dominion in 1929.

Eleven Are Drowned

Lindsay, Ont.—Eleven young men and boys, ranging in age from 16 to 22 years, drowned in the waters of Bass Lake, 35 miles northeast of Toronto, when the war canoe in which they had set out to replenish the supplies of their summer camp was capsized. Four members of the party reached land after clinging to the upturned craft for more than two hours.

Ontario Candidates

Toronto.—Nineteen candidates have been nominated in Ontario to date to contest the federal elections, including ten Conservatives, six Liberals and three Progressives. Nominations included the names of John L. Stinson, former Conservative member in North York, and Thos. Rowley, Liberal in Essex South.

May Sell Interest

Dublin.—Minister of Finance Blythe announced in the Dail that the Irish Free State Government proposed to sell the government's interest in the National Land Bank to the Bank of Ireland for \$200,000.

'Laborite Is Removed

Jack Jones Is Expelled From the British House. London.—Jack Jones, Laborite M.P., failed to withdraw from the commons and had to withdraw from the House on the speaker's orders.

During the question period some members insisted that the minister of mines, L. L. Col. O. R. Lane-Park, was not present, and Jones said: "Is not the real reason that the minister of mines is incapable of answering questions?"

He refused to withdraw the remark, which the speaker declared was completely improper, and was ordered from the House. Two weeks ago Jones caused a stir when he called Lady Astor a liar. Reproved by the chair he substituted Churchill's phrase "terminological incoherence."

More Self Discipline

Ramsay MacDonald Says Youth Requires More Discipline Than Ever. London.—Harsh self discipline was urged upon the youth of today by former Premier J. Ramsay MacDonald, addressing a huge throng at a session of the World's Christian Endeavor convention at Crystal Palace.

Because of the misery the world was reaping from the sowing of a few years ago, he said, youth required a disciplining, more drastic and more hardening in spiritual things than had been called for by any generation for a long period. The speech was roundly applauded.

ELECTION DATE ANNOUNCED FOR SEPTEMBER 14

Poincare To Form Cabinet

Takes Up Task Of Forming Government in France. Paris.—Raymond Poincare, former president of the republic and former premier, will take up the task of organizing a new cabinet to replace that headed by Edouard Herriot, which failed to receive the support of the chamber.

President Doumergue, in deference to the general desire of parliament and the press and public, decided that the time was ripe for a national ministry representative of all, or as many parties as possible for the rehabilitation of the finances of France. He asked Mr. Poincare to organize such a ministry, and this Poincare agreed to do.

Further Home Bank Claims

Toronto.—The 1,800 claimant filed by persons who had more than \$500 on deposit in the Home Bank when that institution closed its doors, are to be taken up at a conference in Ottawa, which L. E. Weldon, liquidator, representing the depositors, left here to attend. There is approximately \$700,000 yet to be distributed to Home Bank depositors, and just what percentage of this 1,800 claimants will receive may be announced within the next few days.

Liquor Agreement With U. S.

Madrid.—The Spanish cabinet has approved ratification of the agreement with the United States regarding alcoholic liquors.

Students Tour in China and Japan

Indicating the great attraction which "the Immortal East" exercises on the Occident, here are a group of happy student boys who are determined to see for themselves what everyone at some time or other talks about and discusses. They are photographed on board the Canadian Pacific liner Empress of Russia and sailed recently on that ship for the Orient from Vancouver for a two weeks' tour of China and Japan under the auspices of the Arts and Crafts Guild. At that time they will see many of the famous shrines and cities of the two countries and will come back with a wealth of new ideas reinforced by actual experience of the two greatest examples of the East. They will return to Canada on the Empress of Russia arriving at Vancouver, August 8.

BRITISH TRADE IS DEPENDENT ON PREFERENCE

London.—Third reading of the Finance Bill was given in the House of Commons after the house had rejected by a vote of 224 to 117 a Laborite motion which would have thrown the bill out.

British trade in recent times has been saved by the amount of British manufactures taken by the dominions and colonies of the empire, Rt. Hon. Sir Robert Horne, former Conservative chancellor of the exchequer, declared in reply to the attack on imperial preference, which is provided for in the bill, by Capt. Wedgwood Benn, Liberal. British exports to the various parts of the empire represented forty-four per cent of her total trade.

"Does anyone imagine that we could keep these markets without the dominions' preference?" he asked. "The result of Australia's increasing British preferences was that 63 per cent of her imports were British manufactures. How did Wedgwood Benn anticipate keeping the dominions' preference if Britain did nothing in return? Sir Robert continued."

He pointed out that there had been propaganda in Canada in favor of reducing or even abolishing the British preferences if Britain did not reciprocate more than she was doing, and he referred to a magazine article by the prime minister of Australia, written last year, declaring that Australia could not be expected to turn a deaf ear to the more favorable offers from other countries if Britain did not reciprocate her preferences to a greater extent.

Poincare To Form Cabinet

Takes Up Task Of Forming Government in France. Paris.—Raymond Poincare, former president of the republic and former premier, will take up the task of organizing a new cabinet to replace that headed by Edouard Herriot, which failed to receive the support of the chamber.

President Doumergue, in deference to the general desire of parliament and the press and public, decided that the time was ripe for a national ministry representative of all, or as many parties as possible for the rehabilitation of the finances of France. He asked Mr. Poincare to organize such a ministry, and this Poincare agreed to do.

Further Home Bank Claims

Toronto.—The 1,800 claimant filed by persons who had more than \$500 on deposit in the Home Bank when that institution closed its doors, are to be taken up at a conference in Ottawa, which L. E. Weldon, liquidator, representing the depositors, left here to attend. There is approximately \$700,000 yet to be distributed to Home Bank depositors, and just what percentage of this 1,800 claimants will receive may be announced within the next few days.

Liquor Agreement With U. S.

Madrid.—The Spanish cabinet has approved ratification of the agreement with the United States regarding alcoholic liquors.

Mission To Britain Fails

B.C. Indians Advised To Take Up Grievances With Canadian Government. Montreal.—The three Indian chiefs from Douglas, B.C., Johnny Chidichien, William Fierish and Basil David, who with their interpreter, Mrs. J. Williams, went to London representing three tribes in the hope of interviewing King George in connection with their rights to lands in the western provinces, have returned to Canada.

They report that their attempts met with failure in that the high commissioner in London advised them to return to Canada and take up the matter with the Canadian Government for settlement.

Alberta Harvest Labor

Province Will Require Thirteen Thousand Laborers This Season. Edmonton.—Thirteen thousand harvest laborers for Alberta this year is the estimate of the province's requirements as reported by Hon. Alex. Ross, minister of labor.

This is an increase of about 3,000 over last year's figures, which is accounted for in part by the better crop prospects and in part also by the fact that there will not be as much labor obtainable locally.

It is not expected more than 4,000 men will be available within the province itself and more than three times that number will have to be brought in from the outside.

New Goal Is Set

Greater Diversity of Crops Is Needed in the West. Regina, Sask.—A new goal was set up by Aaron Sapir for Saskatchewan farmers and business men to aim at. This was the founding out of Saskatchewan's new agricultural institute by the introduction of greater diversity in crops.

After words of unstinted praise for the Saskatchewan farmers in making incredible strides in its pool organization, Mr. Sapir, addressing the Canadian Club here, went on to compare Canada in this respect with the United States, very much to the advantage of the former.

PROGRESSIVE AND LIBERAL FUSION IN MANITOBA

Winnipeg.—Liberal and Progressive fusion arrangements in Manitoba this far contemplated means unquestionably the loss of seat. Conservative seats. Last fall election, was won by the Conservatives polling 5,353 votes, while the Progressives and Liberals combined polled 5,268. Now but one candidate will confront the Conservatives there, making that seat certain for King. In Marquette, an overwhelming Progressive seat, where Hon. Thos. Crear twice won by 7,000 majority, the Conservatives cast 3,441 and won, though the Progressive and Liberal candidates polled 3,234. Now with fusion established the Conservatives cannot hope to win that seat.

The same story is true of Neepawa where the Conservatives elected their man by a total vote of 2,847 while the Progressive and Liberal candidates polled together 5,238.

Fusion has also been completed in Dauphin, another seat won by the Conservatives last year in a three-sided contest by a small margin. At a meeting of the executive, where Hon. Chas. Dunning went into the fusion plans with the Manitoba organization, it was pointed out that fusion candidates would probably not appear in all other rural parts of Manitoba. It is considered it means four of the seven Conservatives who were defeated last fall will be hopelessly outvoted by the Progressive and Liberal candidates.

Conservative Rogers, former member for South Winnipeg, who was again defeated last fall, has been elected provincial member for Dauphin. He is a strong supporter of the fusion plan. Mr. Rogers, who was the chief speaker at a meeting of the executive of the South Winnipeg Conservative Association, definitely announced the withdrawal of the Conservatives from the fusion plan. He said that he would be pleased to see the fusion plan adopted by the Manitoba government.

Premier Meighen will spend several days in the west on his western campaign tour, which will open on August 7, it was announced here. His first Manitoba meeting will probably be in the constituency of Marquette.

The prime minister will spend four days in the province on his way west and three days on his return. His meetings will include one in Winnipeg.

PREPARE VOTERS' LISTS THE SAME AS LAST YEAR

Ottawa.—In answer to an inquiry as to the extent to which voters' lists for the general election, the chief electoral officer said today: "The procedure for the preparation of lists will be exactly the same as that followed at the general election last year. The Dominion Elections Act does not provide for the use of the former Dominion lists except at by-elections, when these are held within two years after a prior Dominion election in the same electoral district. Indeed no other rule could be adopted, since to prepare the necessary copies of all the lists which would be required at a general election would take nearly three months. This difficulty was referred to in my report presented to the House of Commons last January."

It is understood that the procedure in all provinces except Prince Edward Island, Saskatchewan and Manitoba will be that the provincial lists will be used as a basis for the preparation of those to be used at the Dominion election. In rural polling divisions the provincial lists will be corrected, names being struck out and added by the rural registrars as circumstances require. In urban polling divisions all the names on the provincial lists will be transferred to the Dominion lists and in addition the urban registrars will add the names of those voters who apply personally for registration or on whose behalf application is made by a relative or employer who the voter is not away from home. The preliminary lists thus prepared by urban registrars will be corrected by revising officers who will be either local judges or substitute revising officers. They will be corrected by the revising officers in the urban areas and in the rural areas the revising officers will be the same as in the other provinces except there will probably be no provincial lists available for use as a basis for the work of the registrars.

Margaret Bondfield Elected

Returns to Parliament as Representative of British Labor Party. London.—Miss Margaret Bondfield, former chairman of the Trades Union Congress, is again a member of parliament.

She was elected for the Walsall division in the labor ticket by a vote of 10,111 to the vacancy caused by the retirement of Patrick Hastings. Miss Bondfield received 18,556 votes against 9,593 for Sam Hurd, Conservative, and 4,000 for Charles Curry, Liberal.

Miss Bondfield's return to parliament increases the number of women members to six. It will give Stan Lawrence and Ellen Wilkinson additional support on the official Labor Opposition. Miss Bondfield will replace Lady Astor, the Duchess of Atholl and Mrs. Hilton Phillips in their efforts toward legislation for women.

Government Plane Crashes

Three Are Injured in Mishap to Ontario Forestry Plane. Sudbury, Ont.—One of the Ontario government forest planes in charge of Axtell Smith, crashed into the waters of Lake Huron near the air base here. There were five persons in the plane, another aviator being with Smith, and three civilians, Alex. McLeod, well-known Ford dealer of Sudbury and his daughter, Myrtle, and Mrs. Clements of Chicago, who is a summer visitor at the McLeod home. Mr. McLeod is severely injured and may not recover. Both ladies suffered serious injuries and their condition is not dangerous. All three are in St. Joseph's Hospital. The aviator was not injured.

Rejects Beer for the Glass

Winnipeg.—The Ontario Liquor Commission has rejected the proposal of the Ontario Liquor Commission to allow the Ontario government to establish a dispensing beer by the glass, such as those in Vancouver and other cities in British Columbia. The commission has decided that the proposal was voted down by a majority of about 100, and the second meeting was also followed by the dissent of the provincial commission, which has the required percentage of voters.

Canada Must Be Represented

Montreal.—If Canada is not represented at the Imperial Conference set for October 1 next, then the conference can accomplish no great results, Premier Stanley Bruce declared in the House of Representatives here.

THE BLAIRMORE ENTERPRISE

ALBERTA'S EXPERIMENT IN POLITICS

The opinion is quite prevalent in Alberta that the day of party politics is past. About five years ago, the electorate of the province voted very largely to dispense with the services of both orthodox parties, Liberal and Conservative. The majority of members elected to the legislature were nominated by the United Farmers of Alberta. Together with representatives of organized labor, they formed an administration. Last month the renewal of the administration came before the people of Alberta for review in another provincial election. The United Farmer candidates were re-elected almost unanimously. With the possible exception of one candidate, every one of the forty-six candidates who were nominated under the U.F.A. banner were elected. Other constituencies elected five Liberals, four Conservatives, four Labor and one Independent member.

Such emphatic approval of an experiment in government without party politics would indicate that there is more behind the movement than mere dissatisfaction with the party system. The standard of political intelligence in Alberta is high. It is strongly British in sentiment, progressive, and perhaps inclined toward views that are called radical, such as free trade and co-operative marketing. The farmers are mainly interested in economic questions. They believe that the way to solve such problems is to elect farmer representatives.

The U.F.A. political movement has been described as class politics, tending toward class legislation. Farmer leaders would admit that it is a form of representation by occupation. But

they disclaim any desire to monopolize the representation. They urge other citizens similarly to organize to send representatives to the legislature, where the adjustment of economic relations between the various occupational groups would be made. Before the last provincial election, the legislature enacted a measure of proportional representation which is intended to insure fair representation to minorities in the cities. It is rather remarkable that in the city of Edmonton the electorate placed the United Farmer attorney-general at the head of the poll. The U.F.A. premier is also a lawyer; the farmers frankly acknowledge the necessity of securing the co-operation of professional and industrial workers to make a complete success of the experiment in co-operative government.

So far, the movement, has made little headway outside of Alberta. In the last Dominion parliament a small group of Alberta members spoke for the policy of co-operation between groups rather than competition between parties. They exercised an extraordinary influence, too, owing to the close balance between parties. But most of the other Canadian provinces still rely on party politics. United Farmers in Saskatchewan and Manitoba and to some extent in Ontario, are following the Alberta plan, however. They are eliminating the central campaign fund and greatly reducing election expenses. The orthodox political parties might with advantage give some consideration to that improvement in electioneering. —Christian Science Monitor.

The Truro Weekly News carries an article headed: "Baptist Pastor Goes to Paradise." Well, why shouldn't he?

Miss Lucy Harmer received word this week that she had passed with honors in piano in Grade I. of the Toronto Conservatory of Music.

The picnic held yesterday by the local Oddfellows and Rebekahs proved to be the best yet. Everybody reported having enjoyed themselves immensely.

Ralph Maddison is now singing with the Princess' Pats' band at Regina and will be with that organization at the Winnipeg exhibition, August 2 to 7, and later tour west.

SPLENDORS OF FAMED CANADIAN CHOIR PREPARED FOR POSTERITY

In the Brunswick recording laboratories at Toronto, a few days ago, the first Meadebusha choir phonograph records were produced. At this ceremony officials of the choir had the honor of operating the presses which turned out the first records of this internationally famous choral organization.

THOMAS—COWEN

One of the prettiest weddings of the season took place at Langdon on Wednesday, July 21, at 6 p.m., at the home of Mr. and Mrs. Roy Cowen, when their second daughter, Lucy Bell, became the wife of Mr. John Edgar Thomas, only son of Mr. and Mrs. J. J. Thomas, of Alliance, Alberta.

The ceremony, which was performed by the Rev. A. D. McDonald, of Calgary, took place in a beautiful garden setting, before an evergreen arch, trimmed with wild flowers, under which hung a large wedding bell.

The bride looked charmingly sweet in her wedding gown of white georgette, with tucks of silk lace, and trimmed with satin bows. Her lovely, powdered veil was caught with a bandeau of orange blossoms, and she carried a bouquet of Ophelia roses and fern. She was given in marriage by her father.

After a short honeymoon spent in the mountains, Mr. and Mrs. Thomas will reside in Calgary.

THE EDITOR'S BEATITUDES

"Blessed are the merchants who advertise because they believe in it and in their business; for their prosperity shall increase manifold."

"Blessed are the country correspondents who send in their well-written items every week; for fame of their friendly neighbors shall go abroad in the land."

"Blessed is the woman who sends in a written account of a party or wedding; for she shall see the details of the function and the names of her guests correctly reported."

"Blessed are all those who do not expect the editor to know everything; but who call him up and tell him whenever an interesting event occurs to them; for they shall have a newspaper and a place in the editor's heart."

"Blessed are all those who co-operate with the editor in his efforts in behalf of the community; for their town shall be known far and wide as a good place in which to live."

Two more prisoners have escaped from Lethbridge jail.

The regular monthly meeting of the Blairmore board of school trustees will be held tomorrow night in the office of the secretary-treasurer.

Mrs. J. A. Kerr, of Blairmore, and Mrs. W. Purvis, of Coleman, are taking part in the big tennis tournament at Lethbridge this week, where they were successful in winning the women's doubles. Though losing out in the finals, Mrs. Kerr was awarded the efficiency medal as being the best all-round player in the tournament.

Shown in the picture, inspecting the first records to come through the press are, Mr. J. H. Parkes, president; Mr. J. P. Milnes and H. Rooke, vice-presidents, and T. A. Reid, secretary. Immediately behind the press is Mr. W. B. Puckett, general manager of the Brunswick-Balke-Collender Co. of Canada, under whose direction the recording was accomplished.

FORCE PUBLISHERS TO ACCEPT MAIL ORDER ADVERTISING

It has been the rule in Canada and in the United States for publishers, especially the town and community publishers, to refuse to accept mail order advertising, no matter whether these publishers are given the support of their merchants generally or not. In the United States the federal trade commission is considering steps to require newspapers to accept mail order house advertising when offered, regardless of the attitude of the publishers on this subject. This is another step in an attempt to lay down the principle that the advertising columns of a publication are a public carrier and that discrimination regarding what advertising will be accepted is not to be left in the power of the publisher. The mail order houses are making it hard for the town merchants, but the information is gleaned from newspapers' conventions in both Canada and the United States that in cities, towns and communities where the local papers are liberally used by local merchants the mail order business is not as great. The advertising experts of mail order houses watch all newspapers closely and are quick to observe when local merchandising is not fully represented in that community. Efforts are at once made to get into the local papers, and the direct-by-mail advertising is pushed into that section with full force. If headway is made in the United States to force local publishers to accept mail order advertising, it will follow that Canadian mail order houses will advance the same arguments. It can be truly said that the local publishers have remained loyal, and will continue so to do, but in these days of severe business rivalry, when many newspapers are falling by the wayside, others being amalgamated and absorbed, it is necessary that legitimate business must be secured from whatever source available.—Renfrew Mercury.

Just think of it. Wild roses are only now in bloom in Nova Scotia, while we have had them for close on two months in Alberta. A man named Chester Benjamin Underdahl was killed in a motor accident near Medicine Hat on Tuesday afternoon. Owing to balloon trousers, the police have been obliged to direct pedestrian traffic to single file, where a lady and gent are walking together. Pretty tough, eh? "Bobby," said the teacher, sternly, "do you know that you have broken a Commandment by stealing James' apple?" "Well," explained Bobby, "I might as well break one and have the apple as break another and only covet it."

BRITAIN SEES WEST AS TRADE FIELD

"Western Canada is being increasingly regarded by manufacturers and merchants of Great Britain as a promising field for the sale of their products," said A. E. Pollard, newly appointed British trade commissioner at Vancouver, recently. Mr. Pollard was for five years head of the Canadian section of the department of overseas trade, London, and succeeds L. H. Beale, transferred from Vancouver to Wellington, New Zealand.

Eve's Appeal

"One day," said a story-teller, "at the close of a hot day, Adam was returning with his hoe on his shoulder from a hard day's labor in his humble cottage. Young Cain was running ahead, boylike, throwing rocks at the birds. Suddenly they came upon a beautiful garden."

"O, father," said Cain, "look at that beautiful garden. I wish we

could live there." "We did live in that garden," said Adam regretfully, "until your mother ate us out of house and home."

Porky—"I shall never marry. Think what it takes to keep a daughter in clothes."

Pete—"Don't stop on that account, my friend—it doesn't take money to do that now."

"Fa," said a newspaperman's son. "I know why editors call themselves 'we.'"

"Why?" "So's the man that doesn't like the article will think there are too many for him to lick."

Tony McKinley says you never hear a man say—

Is my hat on straight, Does my nose need powdering? Have I got-on too much rouge? No one understands me! I simply haven't a thing to wear!

AUGUST ROD AND GUN

Useful information for sportsmen is contained in the August issue of Rod and Gun in the same issue, corrected to date, for the provinces of Canada and Newfoundland. This Canadian sporting magazine, in the current issue, contains a very attractive line-up of reading matter as well as information.

An interesting account of duck shooting on the St. Lawrence is told by Wingate McHunter. Nova Scotia is the scene of an article on hunting the mink, from the well known pen of Bonnycastle Dale. British Columbia is dealt with in T. C. Young's story of an outing in the Valley of Grantbrook and in A. Bryan Williams' "Breeds from the West." Ontario is represented in "A Canoe Trip Through the Timagami Forest Reserve."

In the monthly "Outdoor Talk" department, Wolves in W. C. Motely's principal theme. Fishing Notes and Guns and Ammunition contain a variety of accounts and information of interest to the angler and the gun man.

Rod and Gun is published monthly by W. J. Taylor, Limited, Woodstock, Ontario.

BLAMES ADULTS

Editor The Evening Star: Sir,—I was sorry to read your article recently regarding the indecent language and behavior of some of the boys at English Bay. What a disastrous position for any lad and who is to blame? If every male would make it a rule not to repeat dirty jokes, that would help, wouldn't it? The Roman Catholic church has a Holy Name Society. Italy is now going to make it worse for the profane person, and if each reader of this note will determine never to pass on the filthy yarns he will help to keep sweet the youth of these parts that have such a grand natural environment to grow up in. What shall it profit if our sons grow up with rotten ideas, and what a future for our daughters to give themselves in marriage to such. We elders have a daily chance to help the younger boys. At least let us not hinder them by passing on the story with deadly comment. Yours for a splendid youth for Canada.—Teacher.

HATPIN CAUSES DEATH OF COW

The following story is from the columns of the Fredericton Gleaner of Saturday:

A hatpin piercing the animal's heart has been revealed as the unusual cause of the death of a cow, which was found lying dead in a field adjoining the city municipal home this week, a short time after inmates of the institution had noticed it walking about the pasture in apparent good health. An autopsy explained the strange cause of death, the hatpin being found piercing the heart's heart which the carcass was skinned and cut up. It is believed that the animal had swallowed the hatpin some time ago and it slowly worked its way into a fatal position. It has been suggested that it must have occurred before the days of bobbed hair, inasmuch as hatpins are rareties these days. Then again it is pointed out that hats bedecked with flowers which would draw the attention of even a hungry cow, and thus swallow the hatpin, have long since passed out of fashion. He that as it may, Mr. McEneaney's cow died from a hatpin in its heart, and it is said to be the first case of the kind ever reported hereabouts.—New Glasgow Free Lance.

In estimated national wealth, Canada ranks seventh among the countries of the world; higher than Australia, Brazil, Argentina, and in fact any of the newer countries. In wealth per capita, Canada is exceeded by the United States and Great Britain. The Dominion ranks fifth among all the nations of the world as an exporter and seventh as an importer.

G. D. BROPHY NEW DISTRICT PASSENGER AGENT

Important changes in the staff of the Canadian Pacific Railway, western lines, are announced at the headquarters of the system. They will take effect August 1st.

G. D. Brophy, district passenger agent at Regina, will come to Calgary. He joined the C.P.R. passenger department at New York as a clerk in 1916. He has had experience in Montreal, Cleveland, Chicago, Banff, Boston and Regina. He was appointed district passenger agent in Regina in 1922.

V. A. Bowes, well-known in veteran circles in Calgary, who has been chief clerk, has been appointed assistant district passenger agent in Calgary. He started work with the C.P.R. in 1908 and served until the outbreak of the war. He lost a leg overseas. On his return, he was appointed chief clerk to the assistant passenger agent, in 1919.

The announcements are as follows: MONTREAL, July 22.—W. H. Smell, general passenger agent, Vancouver, retired.

N. R. Desbrisay, assistant general passenger agent, Winnipeg, to be general passenger agent, Vancouver.

W. Horder, assistant district passenger agent, Toronto, to be assistant general passenger agent, Winnipeg.

H. W. Schofield, chief clerk, B. C. Coast Steamships, Vancouver, to district passenger agent, B. C. Coast Steamships, Vancouver.

F. H. Daly, city passenger agent, all lines, Vancouver, to be district passenger agent, rail lines, Vancouver.

G. D. Brophy, district passenger agent, Regina, to be district passenger agent, Calgary.

V. A. Bowes, chief clerk to district passenger agent, Calgary, to be assistant district passenger agent, Calgary.

J. W. Dawson, district passenger agent, Winnipeg, to be district passenger agent, Regina.

Mr. Desbrisay entered the C.P.R. service at the Saint John, N.B., office as a stenographer in 1904, and remained in Eastern Canada at that city, Halifax, Quebec and Montreal until he was transferred to Winnipeg as assistant general passenger agent in 1922.

Mr. Horder gained his first C.P.R. experience at Montreal in 1906 as a clerk in the general passenger department. He was appointed assistant district passenger agent, Toronto, in 1922.

Mr. Schofield's C.P.R. service has been exclusively in Vancouver, where he joined the staff of the general passenger department in 1911.

Mr. Daly is another official whose C.P.R. service has been mainly spent at Vancouver in the passenger department. He was appointed city passenger agent at that city in 1921.

Mr. Dawson entered the C.P.R. service as a clerk in the engineering department at Winnipeg in 1908, but was transferred to the passenger department the same year. With the exception of a short stop at the company's Regina office, he has always been stationed at Winnipeg, where he was appointed district passenger agent in 1920.

UNIQUE COMPLIMENT

A unique compliment was paid to the Newboys' Band of Edmonton last week, when the famous Coldstream Guards' Band broke precedent and marched with the Newboys organization for a massed band concert on the final evening of the Edmonton exhibition. The Newboys' Band, which played at Wembley in 1924, gave a splendid exhibition in their playing with the famous British band.

A grand concert will be rendered by the West Canadian Colliers' band in the band stand opposite the Cosmopolitan hotel, Blainmore, this evening, commencing at 7 o'clock. A first class program has been arranged. Conductor of the band is G. W. Good, of Bellevue, late of the Twelfth Canadian Mounted Rifles.

FISH STORIES

We had the pleasure a few days ago of overhearing a party of would-be waltzians relating their fly-fishing yarns. One fellow had been accustomed to fishing in the neighborhood of Elko, where the fish are somewhat particular as to what they accept as bait. These they require Atlantic coast lobster meat, just parboiled, not too much at a time and not too early or late in the day. Before an Elko district fish is allowed to take notice of bits he must be of the full marriageable age of eighteen summers, with a mouth like the prize-winning flapper and weighing not less than eighteen pounds. He refuses to be coaxed by a landing net and must be drawn in on velvet soil.

Another chap, of Scotch flavor, evidently domiciled in Alberta, ventured out Sunday morning last for the North Fork. On the Saturday previous he had his six sons scour the hills and vales within a radius of seventeen miles of Blainmore to catch and parcel seventeen thousand grasshoppers, not one of which was to measure less than one and three quarter inches in length or to weigh less than the average Scotchman's love letter. These were contained in four receptacles of eleven inches in diameter and standing eighteen inches from the floor. With these the fish in the various pools were fed by other parties, while the canny Scot dragged an occasional eight-pounder to the shore with a log hook.

The day's catch amounted to four hundred and eighty-four, or about a third of a fish for every man, woman and child in Blainmore. In one of the largest of the trophies, weighing forty-four pounds and measuring fourteen inches in length, was found a splendid specimen of a Prince Edward Island eel. Measured by Cliff Madden, at Lundbreck, this creature was found to be fourteen feet in length and two and a half inches in diameter at the largest part of the body. It was later presented to Mr. Wallace, to be used as a measuring tape by his roads engineers. Another of the catch possessed three gold-filled teeth, with the trade mark of Dr. R. K. Lillie, of Blainmore, and a late stamp of August the fourteenth, nineteen hundred and two, about twenty-four years ago. It has been sent to Ottawa, where such curios are being preserved.

Other tales were told, but the descriptive language used was scarcely understandable, and in any case not fit for publication. Another fellow told a story of crossing over the Peigan Reserve at a fifty-five-mile clip against a seventy-mile Alberta gentle breeze. Grasshoppers would hit the windshield and "bust," and one big fellow, fourteen inches in length, broke the windshield in smithereens.

BRITISH COLUMBIA

GETS RID OF SIGNS

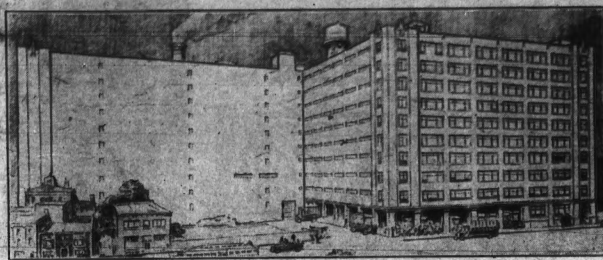

Thousands of advertising signs are being torn down along British Columbia's highways by officials of the public works department in the drastic enforcement of new road regulations. This campaign to rid the highways of scenery-marzing advertising will be carried on with the utmost vigor, according to Hon. W. H. Sutherland, minister of public works, who is empowered by law to forbid the erection of signs of any sort within any government right-of-way.

Most of the roadside signs are dangerous, as well as unsightly. They are located usually at the corners of roads, and motorists frequently find they block their vision, and might easily, as they undoubtedly frequently do, contribute to collisions.

These signs do not improve the scenery. They may hide a lot of weeds, but the landscape is made to look uglier by the supposed remedy.

A large moose was seen in the neighborhood of Lillo a couple of weeks ago, and seemed quite unharmed in a number of men and women who stood a short distance away viewing him.

New \$5,000,000 Cold Storage Plant

Negotiations have been completed for the erection and work will be commenced upon a terminal warehouse and cold storage plant to cost in the neighborhood of five million dollars and to be located just below the Place Viger Station on Craig street, Montreal, according to information given out at Canadian Pacific Railway headquarters. The plant will be built by the Montreal and Harbor Terminals, Limited. It will have a space area of 600,000 square feet, of which one-third will be devoted to refrigerator purposes, the balance to be used as dry storage for package freight and other merchandise. It will be of the most modern construction of concrete throughout.

The buildings, which will be ten stories in height, will, it is stated, be completed in ten months' time and the roof will be on before frosts commence. The Montreal plant will be built on property purchased from the Canadian Pacific Railway and will serve the tracks and shipping facilities of that company. It will be in no sense competitive with any other concern of a similar nature in Montreal, but will develop and expand its own business, handling in particular butter, cheese, eggs and other dairy produce cargoes, so far as its cold storage end is concerned, while its dry storage space will be amply taken up with package freight and other merchandise.

COWLEY HAPPENINGS

Mrs. F. W. Hand, of Hamilton, Ontario, is at present visiting in the district.

Mr. Hildridge has accepted the position of teacher at the Todd Creek school.

Miss Gladys Baines is relieving at the Royal Bank during the temporary absence of the manager.

Carr's Show visited Cowley last Thursday night. The outstanding feature was the marvelous strength displayed by fifteen-year-old Ruth Carr.

Little Dick Smith, son of Mr. Smith, of the Royal Bank, has been critically ill for several days, being removed to Pincher Creek hospital on Sunday night. Latest reports are encouraging.

PASS OILS PREPARE TO PUT DOWN WELL IN MONTANA

Pass Oils, Limited, a company financed by Lethbridge and Crow's Nest Pass men, will sign their drilling contract for the first Montana well this week, according to an announcement made today by officials of the company.

This company, which was fortunate in securing a valuable lease in the big Kevin-Summers, Promising area, is now in a position to go ahead with development, the first well planned being on their Montana lease and about sixty rods from a well which came in as a 300-barrel producer a few days ago. Half a mile from the site spotted for the well the Illinois Pipe Line company has a gathering station, which collects 38,000 barrels of oil daily. This indicates how favorable the situation is.

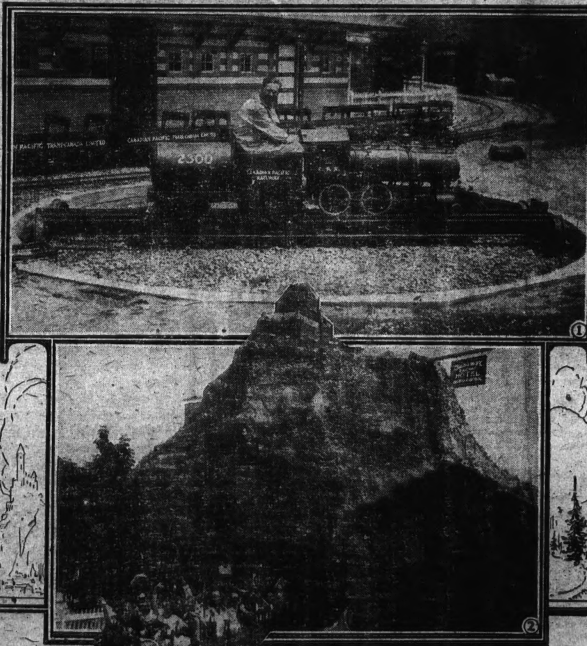

prably situated the local company is. In fact, the directors believe they are "sitting pretty."

Should their Montana venture prove profitable and the company has every confidence that it will, Pass Oils will proceed to develop their Alberta holdings. These are scattered over the various development fields: Turner Valley, Jumping Pound, Rice Creek, Erickson Coules, Rogers, Skiff and the new Milk River field.

The company's first well will be drilled by contract—Lethbridge Herald.

The Consolidated Mining & Smelting Company will likely purchase the entire issue of debentures covering the cost of new school buildings at Trail and Tadoussac, B.C. The schools will cost in the neighborhood of \$24,000 each.

Treasure Island is Mecca for Children

1. Complete and exact in every detail is this small engine, representing the largest type of engine used in the Rockies in Canada. This small engine lifts 20 people around the "Island" in one hour. 2. A miniature of the "Treasure Island" scene showing a party of young girls looking on the Canadian Pacific Trade and passenger through the Canadian tunnel situated in the Canadian Rockies. At top of cliff is a miniature of one of Canada's best hotels, the Chateau Frontenac.

Treasure Island, the outstanding amusement feature of the British Empire Exhibition at Wembley with its bold but nice pirates, Long John Silver and Captain Jack, and its many other famous characters from storyland, Peter Pan, Wendy, Alice, the Duchess, the Mad Hatter, Cinderella, Mother Goose and Robinson Crusoe, has proved to be the greatest entertainment attraction at the Sesqui-Centennial International Exposition at Philadelphia.

It is a much bigger and more wonderful "Treasure Island" than the one which delighted thousands at Wembley last year. It has six acres of land, surrounded by a natural lagoon. The entire lay-out of the island in Philadelphia was designed and built by Maxwell Ayrton, architect of the Wembley exhibition overseas. Drake's ship "The Golden Hind," Noah's Ark and its animals, Noah's two, and pirate and immigrant scenes will be a few of the features seen.

But quite the most fascinating experience of the "Island" is the trip across Canada on the miniature Canadian Pacific Railway's "Imperial Limited" train which is pulled through a replica of the Canadian Pacific Rockies by a small pumping engine only four feet long, but strong enough to pull 50 people. The engine driver is J. Terrence Hodder, the twenty-one-year-old son of one of England's wealthiest families who prefers this job to an Oxford career.

One gets on the train at the Palais Station, Quebec, just below the magnificent Chateau Frontenac, and passes through Quebec and Ontario provinces and enters the prairies in less than no time. When Banff is reached the train stops to allow passengers to see the Banff Springs Hotel and the beautiful Bow Valley. Westward it speeds through the Canadian Pacific Rockies, some 600 feet long, the tallest towering 74 feet high and built of sheet iron and plaster, and dashes into Connaught tunnel thence on to the Coast, where one sees Vancouver Harbour, the Straits of Georgia and picturesque Victoria. More than half a million people rode on the little Canadian Pacific Railway at Wembley last year, and among its distinguished passengers were the King and Queen and the Duke and Duchess of York.

Children Cry for

Fletcher's CASTORIA
MOTHER—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Purgative, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children of all ages.

To avoid imitations, always look for the signature of **Dr. J. C. Williams** on every direction on each package. Physicians everywhere recommend it.

Canada's Growing Time

Having entered upon a new year of activity, Canadians may with profit to themselves, and as a source of inspiration and encouragement, take a brief backward glance over the first quarter of the century—the century which Sir Wilfrid Laurier declared with eloquence and conviction would be Canada's century just as the Nineteenth century belonged to the United States.

Within the scope of such a brief article as appears weekly in this column it is possible to touch only the high water marks of past achievement, but these serve to give confidence for the future. Despite the blue ruin talk which some people seem to delight in, and of which quite a little is heard from politicians during election times, the fact remains that Canada made solid and gratifying progress during the first quarter of the century, notwithstanding the setbacks resulting from the war.

Too much attention is given to the flow of population from the Dominion to the United States, while too little is devoted to the steady increase in our own population. Canadians might just as well make up their minds to the fact that a large, self-contained country like the United States will always prove a powerful magnet to the people of Canada immediately adjoining it, speaking the same language, and with so many things in common. Such attraction is both natural and inevitable.

But how many Canadians take time to consider that the population of the Dominion nearly doubled in the first quarter of this century, from 5,574,215 in 1901 to nine millions now? And now that the most disastrous after-effects of the war are passing, with the United States enforcing rigid laws against immigration to that country, and with more business-like methods of promoting immigration to Canada, the tide of incoming settlers to Canada is steadily rising, with prospects for 1926 brighter than ever.

What are these larger numbers of Canadian citizens doing? In 1901 the area of occupied lands in Canada was 62,234,315 acres and of improved lands 20,186,023 acres, while in 1921 the acreage of occupied lands had increased to 140,837,593 acres, and of improved lands to 70,769,514 acres, having more than doubled in both cases within twenty years.

In 1900 the capital employed in Canadian industries amounted to \$146,900,000; in 1920 it was \$1,125,789,000, or nearly eight times as much. Canada's imports in 1900 were valued at \$172,551,676, and exports at \$183,277,659, or a favorable trade balance of a little over ten millions, and representing a total foreign trade of \$355,829,335. In 1924 imports had grown to \$1,058,563,287 and exports to \$1,058,563,287, or a favorable trade balance of \$195,999,600 in a total foreign trade of nearly two billions of dollars. The figures for 1925 will reveal an even more satisfactory showing.

Canadians should absorb these figures, and many more of a like character which might be quoted, and instead of deprecating their country and thinking of it as slow and unprogressive and the reverse of prosperous, should boast for Canada on all occasions and give intelligent answers to its critics and detractors.

The new year of 1926 was ushered in with business more active and flourishing throughout the Dominion than for many years past, with many of the largest industries working overtime to fill orders, with less unemployment than usually prevails in mid-winter, and with an optimistic note being sounded by all the large financial concerns.

The first quarter of the Twentieth Century, notwithstanding the war, witnessed great progress in Canada and the beginning of the fulfilment of the prophesies that it would prove to be Canada's century. The progress that made, and the exceedingly favorable conditions under which the Dominion had entered upon the second quarter of the century, give confidence that when the half-century mark has been reached, the development and progress of Canada will be found to have been indeed remarkable and not surpassed by any other country in the world.

If Canadians are true to themselves, they can realize for their country in the next few years the greatest expectations ever entertained for the Dominion by its most ardent patriots. "This is Canada's Century" should be the slogan of all—a beaconlight beckoning all citizens, and inspiring them to put forth their highest and greatest endeavors.

Wants General Disarmament

Germany Announces Intention to Place Demand Before League of Nations

Now that the disarmament of the Reich is officially recognized by the evacuation of Cologne, France should proceed to its own disarmament. It is comprehensible that France should keep 700,000 men under arms. If Germany could dispose of an equal number of effectives, but the German army no longer exists. In the League of Nations, Germany will demand with persistence general disarmament. As long as the abnormal situation exists of a disarmed Germany facing other powers who are engaged in an armament race, Germany will not be able to adopt a foreign policy, for to have a policy without an army is like giving a concert without instruments. This was the point of view of "Old Fritz" (Frederick the Great), Deutsche Allgemeine Zeitung.

Kenora Paper Mills

Plant Expected to Greatly Increase Output Within a Few Months

The Kenora Paper Mills is the new name under which the plant of the Backus interests is to be operated in the future. Since the commencement of operations this plant has been operated through the Kenora Lumber Company, pending a selection of a name for the new concern. The output of this mill is at present about 120 tons daily, but it is expected that within a few months it will be increased to 250 tons.

Vatican To Have Big Radio Plant
Rumors that the Vatican will broadcast messages to the world by wireless have again been revived by the arrival of a huge radio apparatus at Milan, consigned to the Vatican.

The Oldest Calculator

When a child counts on beads strung on wire in a frame, he or she is using a copy of the abacus of the Greeks and Romans—the oldest calculating machine in the world.

Minard's Liniment used by Veterinarians

Some Sensible Advice

Follow Safety First Idea and Keep Away From Uncertain Investments

You have heard of sections of the country where money is made in gas, oil or real estate almost overnight. You compare your slow process of getting the "where-with-all" and you become dissatisfied with your job, your boss and your whole environment.

You may have a home and a couple of thousand dollars and while you have a steady position you are tempted to sell everything and try out the investment game where money is reported so easily made. The pictures drawn for you by interested salesmen have fired your imagination and upset your mental balance.

Look here, old man, take sensible advice and do not risk the little you have on such uncertainties. Investment and securities are out of your line and the small sum you can turn into cash should be safeguarded, not risked. So hang on to what you have. —Edmonton Bulletin.

SAVED BABY'S LIFE

Mrs. Alfred Tranchesi, St. Michel des Salines, Que., writes: "Baby's Own Tablets are an excellent medicine. They have saved my baby's life and I can highly recommend them to all mothers." Mrs. Tranchesi writes: "My baby was born with colic and the doctors said that he had colic. I gave him Baby's Own Tablets and he was cured. I can highly recommend them to all mothers." Mrs. Tranchesi writes: "My baby was born with colic and the doctors said that he had colic. I gave him Baby's Own Tablets and he was cured. I can highly recommend them to all mothers."

Settlers For British Columbia

Lake Windermere District Securing a Large Number of Desirable Immigrants

The Lake Windermere district is receiving a larger number of settlers than it has in the past. The district has been favored with the fact that it has been settled down immediately around Invermere, there has been a larger settlement at Edgewater. These settlers comprise experienced agriculturists and gardeners from Germany, Switzerland, Denmark and the Western United States.

Worms, however generated, are found in the digestive tract, where they set up disturbances detrimental to the health of the child. There can be no comfort for the little ones until the harmful intruders have been expelled. An excellent preparation for this purpose can be had in Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

Youth For Peace

Effort to Link Youth of Canada in International Movement

Effort to link the youth of Canada in the international youth movement, was made by Thomas G. Harrison, of New York, national field secretary of the Fellowship of Reconciliation, in an address under the auspices of the Student Christian Association at Montreal.

"We realize that to outlaw war, there must be world federation of youth," Mr. Harrison stated. He told of developments in Australia and other parts of the empire, and asked Canadian help for the youth in the United States who were struggling against nationalist tendencies in their own country.

Civil Marriage in Turkey

First One On Record Took Place in Constantinople

The first civil marriage in Turkey, that of a Turkish school mistress and a government official, took place at Eski Shehr, says a dispatch from Constantinople to the London Daily Mail. Both the bride and groom signed a contract declaring they would enjoy equal rights; that any act infringing equality would violate the sanctity of the family, and that until conditions of existence became easier, both must work for a living.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

Indian Princesses Play Football

That young princesses in India play football will surprise some people over here. But the Begum of Bhopal stated the other day that it is quite over three granddaughters mine most during their sojourn in England.

B.C. Spruce Seed For Britain

The first consignment of spruce cones from the Queen Charlotte Islands has reached the federal seed extraction plant in New Westminster. The spruce seed is an order for the British forestry commission, which is in the market for fir, cedar, spruce and lodge pole pine seed from the coast province.

To Harness Ocean Tides

Promoter Tells of Big Power Project On a Part of Fundy

The future of the entire North Atlantic coast will be affected by Dexter P. Cooper's Passamaquoddy Bay tidal power project, its originator said at the dinner of the Maine Society, which he discussed in detail his plans for developing between \$50,000 and 700,000 horsepower by means of a modern, low-head hydro-electric station on an arm of the Bay of Fundy.

The amount of power which can be developed will depend largely upon market conditions, Cooper said. The annual production of the plant will be approximately 3,000,000,000 kilowatt hours, which is according to the good average for the year, one of the 75 per cent of the output of the public utility plants in New England in that year.

The cost of this power will be well within the range of the cheapest hydro-electric station in this country, with the added asset of positive assurance of output. It will be possible to sell a part of the power in New Brunswick and in Maine, and, owing to the location of the project, about 200 miles east of Boston, it will be within easy transmission distance of all of New England.

Mr. Cooper said that the tides at the site of the new power plant have a range that varies between 18 and 27 feet every two weeks.

"Nature has produced two large bays, having a combined area of 150 square miles," Mr. Cooper went on, "which can be placed at small expense under complete control. This example of which have appeared in the news columns, certainly suggest that the policy of immigration is being gone at in a new spirit by the immigration department; it is being gone at, indeed, with a rush."

The New Immigration Rates

A Real Immigration Policy To Be Launched

The new schedule of immigrant rates from Great Britain to Canada, which was announced by the immigration department, certainly suggest that the policy of immigration is being gone at in a new spirit by the immigration department; it is being gone at, indeed, with a rush.

The reduction, and surprising, almost startling, from any British port to the fare to Quebec is to be \$15; at present it is \$19.75. From any British port to Winnipeg the fare is to be \$17.50; at present it is \$19.75. To Vancouver the fare is to be \$14; at present it is \$12. It can be readily believed, from such examples, that the statement is true that these new rates will be the lowest that have been made in the past.

Mr. Stora's recent statement that the government hopes to bring in 250,000 immigrants next year takes on the aspect of reality when these fares are announced. They are so low, indeed, that they imply of very considerable amount of supervisory over the immigrants when they arrive and have been placed; because the low fares will enable large numbers of British people to emigrate who will have little or no money to pay the expenses of the migration scheme will need to carry them a good deal further than their point of destination.

The new rates, however, indicate that a real immigration policy is about to be launched, and such a policy will have the approval of the whole country. —Montreal Free Press.

Time has Tested It—Dr. Thomas' Eucalypti Extract has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. Its high value throughout Canada and its excellence has carried its fame beyond the seas. It is here double the price it would be a cheap liniment.

Anxious That States Join World Court

Few Members of Senate Cannot Prevent It Says Bishop Manning

The demand that the senate recognize public opinion of the United States for entry into the world court was voiced by speakers at a Thanksgiving service in the Cathedral of St. John the Baptist, celebrating the signing of the Locarno treaty.

Both Bishop William Manning and Nicholas Murray Butler, president of the Columbia University, declared that a small group of senators on the whole cannot prevent the United States from entering the court.

This spirit of peace was typified in a procession through the unfinished nave of the cathedral which opened with the singing of the hymn of the six other signatory nations represented in the Locarno pact were carried, including the flag of Germany, which had not been seen in the cathedral since the war.

Each day more than 5,000 tons of newspaper print paper is produced in Canada.

Minard's Liniment for Grippes

Trade Prospects Reviewed At Meeting of Bank of Montreal

More than ordinary interest this year attaches to the proceedings at the annual meeting of the Bank of Montreal because of the general hope that commercial conditions promise improvement and the knowledge that bankers are in best position to confirm that expectation. The note sounded by Sir Vincent Meredith, the President, and by Sir Frederick Williams, Taylor, the General Manager, was distinctly optimistic. The address of the President covered a wide field of finance and trade, a survey in a large way of existing domestic conditions in which encouragement was found, and a review of affairs in other countries with which Canada carries on commerce, and where the general conditions, in some degree upon ourselves. The balance sheet of the banks is the latest sign of business, and in the form we may read the state of the latter. Bank deposits have grown while bank loans for commercial purposes have decreased, a sign of growing trade. But the country is emerging from a depression, and the opinion of Sir Vincent Meredith, "there is no question but that the 'trend of business' is slowly but surely upward," and in support of this conclusion he cited many examples. Dominating all is the big harvest of the year, one of the largest ever gathered, marketed at a profitable price. Sir Vincent Meredith estimates that the year's harvest will bring at least \$500,000,000 of new money into Canada, from which will come a liquidation of farmers' liabilities, and therefrom an improvement in business generally the country over.

Sir Frederick Williams, Taylor, the General Manager, dealt more particularly with the affairs of the Bank. The strength of the Bank was evident in figures in the percentage of liquid assets to public liabilities to the extent of 84 per cent. Deposits have grown particularly savings deposits, and circulation of notes is large. An important point was brought out by Sir Frederick when he said that "Canada now has one branch bank for every 2,200 people, as compared with one bank for every 3,700 persons in the United States and for every 3,900 persons in Australia." The fact that recent amalgamations of banks in Canada have reduced banking facilities is dispensed by these figures.

Summing up the outlook for Canada, Sir Frederick said: "We have a natural resources and an industrious people—in fact, all that goes to make a great and strong nation—but, perhaps, the greatest of our assets is financial. Without that all our manifold advantages mean nothing."

We should ever keep before us the fact that Canada has immense potentialities and that the mistakes of the past are repairable. Also, we have a splendid material base and what, with a loyal love of country and a unanimous determination to preserve our political independence.

Wants Canada As Member

Dominion Will Be Invited To Join Pan-American Union

A proposal that efforts be made to obtain the admission of Canada into full membership of the Pan-American Union was one of a group of resolutions for promoting better relations between the three Americas adopted by the Pan-American Commercial Congress at its final session in New York.

The resolution pertaining to Canada suggested that the Dominion and all other western hemisphere political entities be invited into association with the Pan-American Commercial Congress and that the admission of the Dominion into the Pan-American Union be made "to the end that Pan-America may include all America."

It was also decided that the Pan-American Congress for 1927 would be held in Mexico City.

Dragged Down by Asthma. The man or woman who is continually subject to asthma is handicapped for his or her life's work. Strength depends on energy is taken away until he becomes a drab existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to a host of sufferers. It relieves the restricted air tubes and gives against future trouble. Try it.

Must Meet Wembley Deficit

But Was Worth Three Times the Sum As Empire Asset

The deficit on Wembley Exhibition is announced to be \$10,000,000. But according to J. H. Thomas, M.P., who is chairman of the Liquidators, it was worth at least treble that sum as an empire asset.

It is estimated that the British taxpayers, as guarantors of Wembley, will have to pay \$5,000,000 towards its losses. Of the private guarantors Mr. Robert McAlpine and Sons will be called on for \$750,000; underwriters of Lloyd's, \$500,000; five principal banks, \$250,000.

Campaign of Education

The Jewish Immigrant Aid Society of Toronto has commenced a programme of education in Canadian history and institutions, in an attempt to improve a state of ignorance regarding Canada among many immigrants from Central Europe, which has amounted to the belief that this country was governed from Washington.

SUNDAY SCHOOL LESSON

JANUARY 3

THE SON OF GOD BECOMES MAN

Golden Text: And the Word became flesh and dwelt among us (and we beheld his glory, glory as of the only begotten from the Father), full of grace and truth. John 1:14.
Lesson: John 1:1-18.
Devotional Reading: Philippians 2:1-11.

Explanations and Comments

The Relation of the Word of God and to the World, verses 1-5.—In the beginning, before the creation of the world, before time began, was the Word. Compare Genesis 1:1, and Matthew 22:29. "In the beginning, the Word was with God, and the Word was God." The world was from that beginning, but the Word was in the beginning. "The Word was with God, and the Word was God." It was the eternal God, the Logos, was a familiar and significant word in both Jewish and Gentile thought. It meant the Eternal God in relation to man, the self-communicating God. John uses the term to designate Jesus Christ as expressing and revealing God to the world.

"Christ is not a word, you observe, but the Word. Every prophet was a word of God. Every great or good man since the world began, who has added anything to the general fund of virtue or of truth, has been a word of God. Justice was God's word to science. Luther was God's word to religion. But Christ was The Word—the full and complete thought of God—uttered once for all, expressing the very soul of God with such perfection and finality, that of him it may be said, The Word was with God and the Word was God" (Dr. J. W. Dawson).

Left Nothing For Charity

None of his fortune of 170 pounds was left to be put to the use of the will of the late Sir George Dashwood Taubman Goldie, founder of the British Territory of Nigeria. The will stated his belief that all public affairs should come from deprivation on the part of the giver rather than his heirs.

Settlers For Irrigation Area

James Pike, manager of the Lethbridge Irrigation project, has just stated that on an average of a settler a day is being placed on the irrigation tract. Incoming farmers get competent instruction from the start.

To Commemorate Visit of Prince

To commemorate the Prince of Wales' visit to South America, it is proposed to raise \$25,000 for the endowment of a King Alfonso XIII, chair of Spanish at Oxford University.

Here and There

The Right Honourable Viscount Komin Matsudaira, attaché to His Imperial Highness Prince Chichibu, second son of the Emperor of Japan, passed through Canada and left Vancouver for Japan where he will spend his vacation with his family. The Viscount will return through Canada to England in the fall.

Fifty-five young fellows who have been prepared for Canadian farming at the British Ministry of Labor's centre at Brandon, England, arrived in Canada recently on the Canadian Pacific S.S. "Empress of France." They came to this country, accompanied by Lt.-Col. G. A. Briston, under the auspices of the Canadian Government and the C.P.R.

Arrangements have been made to install facilities for supplying both fuel and diesel oil to ocean liners which will dock at the minister new double decker pier "B" and "C" of the Canadian Pacific Railway now nearing completion in Vancouver harbor. It was announced that eight marine elevators would be installed on the pier, the elevators being known as Barlow type on the Pacific coast.

202 Certificates were awarded to successful Sleeping and Dining Car employees of the Canadian Pacific Railway for passing their examinations in the First Aid instruction classes. The extent to which First Aid instruction among C.P.R. teams is growing is indicated by the fact that the McAdam, N.B., team was recently awarded the Wallace Nesbitt Trophy, in which competition Michigan and Maine also sent contestants.

Definite indications of the largest building year Canada has had in more than a decade are now shown by the record of the first six months of this year. The very large and unusual total of \$194,545,000 worth of new construction for the first half of the current year, and contemplated new work to the value of \$204,698,500 forecasts great activity for the remaining months. During June contractors awarded \$24,198,400, an increase over June, 1925, of 62 per cent.

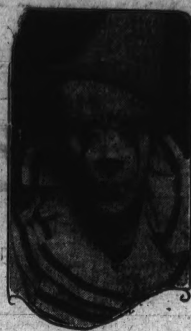

Net profits of the Canadian Pacific Railway for the month of May totalled \$74,376, compare with \$68,913 in the corresponding month of last year, an increase of \$1,639,463, being the best showing in this respect since 1921. Gross earnings for the month are shown at \$15,492,738, an increase of over three millions, when compared with May of last year, and the highest gross shown by the road for any May since 1920. Working expenses for the month under review are shown higher by 14 millions.

Mr. W. L. Huston leaves Sunday morning for Vancouver, where he will be special representative of the Blairmore Lodge at the Grand Lodge of Elks of Canada and Newfoundland. Returning, Mr. Huston will spend a few days in the Nelson, B.C., district.

Scores of tourists have stopped at our campsite nightly of late and all speak in glowing terms of the location and facilities provided for their accommodation.

A lean, ragged-looking Alredale showed its devotion to its master, who was arrested for intoxication in Lewiston, Me., by following the patrol wagon to the station, refusing to be driven away by officers, remaining on watch at the lock-up all night and the next morning appearing in court with its master.

The big arena is practically all ready for the big carnival, which starts off on Thursday next. A sectional hardwood floor, size 40 by 50, has been completed. It is the biggest hardwood dance floor in this corner of the province and will easily accommodate five hundred dancers at a time. The grounds surrounding the arena are being levelled off to make parking space for hundreds of cars.

Big clowns and little clowns—clowns from many lands, clowns with funny faces and clowns with faces so sad they make you laugh, are among the half hundred "Joeps" who make merry in the Sells-Floto circus rings. There is one who is 36½ inches in height and another who is a six-foot-

They will all be in Blairmore when the big show comes Thursday, August 5th. Bill Caress, famous clown policeman, is still with the gang. He was really once a policeman, by the way.

Bill is shown above in one of the various make-ups he uses in the course of the clown program. One of the bright features of the program is the clown band which gives a complete concert of popular music as they believe it should be rendered.

TED BAKER DROWNED

R. C. Monroe received a telephone message Sunday night informing him of the drowning of Ted Baker, the youngest son of Mr. and Mrs. B. S. Baker, at Sand Point, Idaho, that day. Mr. and Mrs. Baker, who now live at Lomita, Calif., were on their way here, coming by motor as far as Sand Point, where Mr. Baker has a brother living. On account of customs regulations, they left their car there and took the train. Ted stopping with his uncle, Mr. and Mrs. Baker were intercepted at Blairmore by a telegram informing them of their son's untimely death, giving no particulars. They left the train there to return to Sand Point by the next train.

Mr. Baker phoned Mr. Monroe here to notify his son, Archie Baker, who arrived here a week ahead of his parents, and his daughter, Mrs. Palmer, who lives near Cayley. Mr. Monroe secured a car and drove to Mr. Palmer's, and Archie and his sister drove to Magedo, arriving there just in time to catch the Spokane train Monday morning, which was the same train which their parents took at Blairmore.

They are expected back here tomorrow, when more particulars of Ted's death will be known.—Nanton News.

A quiet wedding took place on Monday evening in Blairmore, when Mr. Alfred L. Taylor and Miss Irene May Harris, both of Hillcrest, were united in matrimony. Mrs. Stuchbery, sister of the groom, and Mr. Richard Harris, brother of the bride, accompanied the couple.

Anxious bride (as young husband appears on piazza)—"Oh, dear, I'm so glad you've come. We heard that some idiot had fallen over the cliff and I felt sure it was you!"

Mrs. James Milne and daughter, of Taber, are visiting here with her daughter, Mrs. Hartley Upham.

Miss Marguerite Pearson is home on a visit to her parents.

LOWER CASE "I"

I'm an old battered "I" of a newspaper foam,
My career very chequered has been;
My vicissitudes all I should fail to recount,
But I'll mention some changes I've seen.

When first consciousness dawned, I found that I had
Three good neighbors called I. O. and V.
My prospect was cheerful, and I thought a glad
And bright future lay open to me.

But I lost my three friends, and I found myself next
In "dejected," in "grief," and in "care."
And since then I have been alternately
Highest "rapture" and deepest "depair."

In "prayer" I have knelt, I have shrieked forth a "curse";
I have burst into "laughter" and "tears";
I have struggled in "hate" and in "strife," and far worse,
In "red murder" I've shuddered with fears.

I've been plunged into "rivers," I've been ducked in the "sea,"
And I've oft been enveloped in "fire,"
But the elements did little damage to me:
"Death" me held, but I did not expire.

I've sparkled in "beauty," and I've oft rolled in "wealth";
In great "poverty" too have I lain;
In "sickness" I've pined, and been buoyant in "health,"
But I never shall be so again.
My work is now finished. On my old battered face
All my past life is written, I know. I now take my farewell with a bow
And away to the hell-box I go.

PAYING BY CHEQUE

Certain financial authorities are quoted as saying that from what they have gathered through their own observations, folks who pay by cheque seem to get ahead faster.

The accumulation of money is something we are all of us more or less set upon. And accumulating money means handling it properly, efficiently, intelligently—a call for modern, scientific methods.

These financiers say that to handle money there is just one modern tool or method; that is—a checking account. They assert it helps you make money go farther, thus shortening your road to financial independence; and they present some cold, logical reasons for the assertion.

Say they: It eliminates chances to lose money from pockets or pocket books, when you pay by cheque; it eliminates the chance of loss through incorrect change; it reduces the possibility of having to pay bills twice, because your cheque is its own receipt; it puts a brake on thoughtless, unnecessary expenditures, fifty cents for this, a dollar for that, goes easier when you put your hand in your pocket than when the purchase involves cheque book and pen; it saves time, and this is money, unless we are wrongly taught; it helps you with your budget—and it is maintained that a budget is as essential to the private as to the public purse.

And finally, but most certainly not the least, such an account brings you in close personal touch with the banker, and places you in a position to profit by the counsel and guidance of men who know the business and financial situation as few other people can. And you will not find your banker unapproachable. He will be glad to advise you even in matters that may seem small to you. That is one of the things he is there for.

A convention of farmers of the Macleod federal constituency will be held at High River on Monday next.

DO NOTS FOR SWIMMERS

Don't go in water within two hours after a heavy meal.
Don't go in water within one hour after eating anything.
Don't go in the water when overheated.
Don't go in the water when tired.
Don't wear tight clothing.
Don't try deep water if you are a poor swimmer.
Don't duck a person who can't swim.
Don't remain in the water until exhausted.

Don't die in shallow water.

Don't go in water with an abrasion on the body.
Don't kid Life Guards with false alarms.
Don't think because you are a good swimmer you can't drown.—The Banner, Vancouver.
A farmer came to town to insert an obituary notice.
"How much do you charge?" he asked.
"A dollar an inch," was the reply.
"Good heavens! He was six feet tall!"

Items of Local and General Interest

The Goldstream Guards' Band will be at Lethbridge on August the 17th.

There seems to be no place like home for most of the charity that begins there.

Miss Mildred Bond returned home last week end from Pincher Creek, where she had been visiting with friends.

Miss Marion Ennis left by Sunday morning's train for Vancouver, where she will spend a vacation with friends.

A vote on the beer plebiscite will be taken in the Grand Forks-Greenwood district of British Columbia on August the twenty-first.

More than two hundred million pounds of canned fruit and vegetables from the United States were exported to Great Britain last year.

Mrs. Anders, Mr. and Mrs. R. Hutchinson, who had been visiting with the former's brother here, Capt. W. A. Beebe, left by auto this morning for their home in Portland, Oregon.

Master and Mrs. Metcalfe, of Corbin, B.C., were week end visitors with their aunt and uncle—Mr. and Mrs. Ed. Royle, returning home on Monday morning.

Mr. and Mrs. C. F. Sedgwick and party passed west through Blairmore on Monday evening, on their way home to Nelson, B.C., after a visit by motor to Calgary.

Four out of a team of six horses were instantly killed by lightning in a field six miles west of Claresholm on Monday afternoon. The teamster was knocked out for a while.

A Corbin logger named Archie McFarlane committed suicide by slashing his throat with a razor while on a fishing trip with two chums up the Flathead river.

Conditional on her remaining away Vancouver for a year, Judge Cayley the county court at Vancouver suspended sentence on Christine Leary, who pleaded guilty to a charge of theft.

Mrs. William Evans, of Blairmore, Canada, is in Ennmett for an extended visit with her son Mervin and daughter, Mrs. Lillian Smith, both employees of the Golden Rule Store.—Ennmett Index.

Mr. and Mrs. Henry Marquis, of Pincher Creek, announce the engagement of their daughter, Cecile, to Mr. Arthur J. Kelly, of Blairmore, the marriage to take place the latter part of August.

Bootlegging and blindpiggling seems to be thriving in the Waterton Lakes district, which probably accounts for the government's refusal to establish a vendor store on bear shop there.

In Alberta we occasionally hear of a person being killed in an auto after having imbibed somewhat freely. In some of the local option districts of British Columbia they are being killed in accidents while motoring to where liquor or beer may be had from other sources than bootleggers.

Notification has been received from the minister of mines, that H. Wilton Clark, Bach. Science in mining engineering, and now employed at the International Coal & Coke Company, Coleman, was successful in passing for mine manager at the recent examination held at Blairmore.

Last week The Enterprise turned out three thousand full-sheet posters, announcing the big ten-day sale of Mrs. H. E. Giesse at Coleman, which opened yesterday and is being well patronized. The sale is in charge of Mr. O. M. Giesse, of the T. W. Kelly Sales System, of Minneapolis, Minnesota, who is a real specialist.

A. M. McParland has been appointed fire chief at Strathmore.

The Bellevue central school building is to receive a coat of stucco.

Ralph Fazio, who has been employed in the Drumheller district for about a year, was back here during the week on a brief visit.

Mr. and Mrs. A. R. Granger and son, and Miss Elizabeth Williams, are expected back this week end from a holiday motor trip to the B.C. coast.

The new Roman Catholic school on the Blood Indian reserve, near Cardston, was officially opened by His Lordship Bishop Kilduff on July 21st.

On a recount, Capt. Joseph T. Shaw was declared winner by one vote in Bow Valley. His opponent, Mr. Ben S. Plumer, U.F.A., has given notice of appeal.

Mrs. A. M. Elliott and daughter Irene, of Calgary, have been guests the past week of Mr. and Mrs. R. W. H. Pinkney. They return to Calgary on Monday next.

Miss Hulme, who for the past couple of years has been teaching at Bellevue, has returned to England. Miss Hulme came out on the teachers' exchange plan.

Ratepayers of the town of Innisfail will vote on a by-law to raise \$5000 for the purpose of installing cement sidewalks on one of their principal streets. It will be money well spent.

At the end of a church service in Calgary on Sunday last, the preacher announced that the choir would sing a special anthem composed by the organist, after which the church would be closed for a month for necessary repairs.

The value of advertising is portrayed in one of our exchanges, in which a large advertiser in an extra space announces that he had not time to change his ad, but stated that he was completely sold out of everything advertised the week previous.

Charged with vagrancy, John Gekas, well known Hillcrest resident, was given twelve months' suspended sentence on condition that he leave the province. We understand that none of the neighboring provinces are bidding for John's company.

Stan Walker relinquishes command of the Bellevue Inn at the end of the present month and will leave to take charge of an hotel at Delta. Mr. and Mrs. Walker will be very much missed, for during their stay in The Pass they have made many friends.

A. J. Johnston, of Lethbridge, was convicted at Waterville, Wash., on a charge of reckless driving in connection with the auto accident in East Wenatchee, in which Miss Hazel Torrance, of Cashmere, was killed, and was fined \$99 and costs.

Pat Hanley, sentenced to death for the murder of Nurse Mildred Neilson at Trail, B.C., early in February, 1925, has escaped the gallows, his sentence having been commuted to one of life imprisonment. Hanley was to be executed at Okalla prison on August 2nd.

According to an announcement, Mr. J. Rushton has taken over the grocery business formerly conducted by J. Johnson & Sons, of Coleman, and will conduct same under the name of the "Rushton Cash Grocery." Jack is well and favorably known in Coleman and will no doubt do well in his new business venture.

The school board of Red Deer is not looking for cheap stuff in teachers, but rather has the interests of the pupils at heart. They have just engaged a lady vice-principal at a salary of \$1800 and a lady teacher for Grade VIII, at \$1600. The board wisely turned down the "cheap" ones.

Jazz orchestras have cured more rheumatism than medicines.

One country, one flag and one wife is enough for any man, if you can get him to believe it.

Miss Edgar, of St. John's, Newfoundland, is paying a visit with the Misses Heare at Pincher Creek.

Mr. and Mrs. J. Haddfield, of Coleman, are enjoying a visit to their old home in the maritime provinces.

Messrs. Dr. Hynes, Dr. Hoar and W. J. Bartlett were visitors to Turner Valley and Calgary last week end.

The new C.P.R. hotel now under construction at Regina will be a twelve story building, instead of ten stories as at first planned.

Miss Helen Morrison, daughter of Mr. and Mrs. H. C. Morrison, Cowley, has secured a position as teacher at the Pincher Creek public school.

Miss Lillie Perkins, of the Calgary city teaching staff, formerly of Blairmore, is guest of Mrs. James R. Irwin of Cowley, for the summer holidays.

Twenty-five tons of salt are being produced daily at Fort McMurray, Alberta, from two seams of 120 and 140 feet in thickness at a depth of 600 to 800 feet.

The Blairmore swimming pool is being well patronized these hot days. Dressing rooms are being erected and there is talk of taking immediate steps to make further permanent improvements.

The town of Cardston will ask a bonding company to make good a shortage of \$2000 or more in municipal funds. Failing to meet this request, action will likely be taken against the bonding company.

Probate of the will of the late Sir James Loughheed, of Calgary, who died November, 2nd, 1925, has been applied for in Toronto. The net value of the estate was \$249,218, a portion of which is held in the province of Ontario.

Lewis Dunkley had a very narrow escape from being killed when his auto skidded on gravel and rolled over an embankment near Passburg on Thursday evening last. Although the car rolled over several times, Mr. Dunkley emerged with but a few slight scratches and the car suffered very little damage.

A judgment recently given by Mr. Justice Logie awarding \$2000 damages against a city to a resident of Owen Sound who suffered from an attack of typhoid fever, on the ground that the authorities had been negligent in supplying water in which there were typhoid germs, has a wide interest for municipalities. If towns are to be held responsible for any deficiency in the quality of the water provided the citizens it will behoove them to be careful for an epidemic such as sometimes occur would involve municipal bankruptcy. The judgment is being appealed.

GOVERNMENT LIQUOR CONTROL ACT OF ALBERTA**APPLICATION FOR BEER LICENSE**

Roland Pinkney has received word that he had successfully passed his examinations in Latin and French.

"I can read your mind like a book," the Prof. was grinning. "I can tell just what each one of you is thinking."

"Well, why don't you go there then?" drawled a cynic in the rear seat.—Boston Beacon.

**BREAD!**

Do you ever get out the jam got and sit down to a good old lunch of bread and jam?

Try it. It's an experience worth while.

Nothing like bread to satisfy a real appetite—

Hot Bread with jam, with jelly, with butter, with anything.

MOTHER'S BREAD

Is a really delicious loaf.

Bread is your Best Food—Eat more of it.

Bellevue Bakery
